Summary

Frontend Engineer dedicated to building high-performance, responsive, and visually stunning web applications. Strong focus on modern UI/UX implementation, clean client-side architecture, API integration, and optimizing the overall user journey.

Internship

Information technology institute (ITI)

Jan 2026 – June 2026

MEARN Stack

Hybrid

- Intensive training in full-stack web development using MongoDB, Express.js, React.js, Next, Angular, and Node.js.
- Built responsive web applications using HTML5, CSS3, Bootstrap, and modern JavaScript (ES6+).
- Developed RESTful APIs and worked with databases, version control (Git), and Agile team workflows.

Web Masters Company

Sep 2024 – Dec 2024

Frontend React Developer Intern

Remote

- Completed multiple frontend development tasks using React.js, JavaScript, TypeScript, and Tailwind CSS.
- Built responsive UI components and web pages following modern frontend development practices.
- Collaborated in a task-based training environment and improved problem-solving and debugging skills.
- Ranked 1st place among 40 trainees based on task performance and points system during the internship.

Projects

Next.js Portfolio | Next.js, TypeScript, Tailwind CSS, Shadcn UI, Framer Motion

- Architected and deployed a personal portfolio website using Next.js, designed to showcase projects, skills, and experience in a clean and interactive way.
- Integrated smooth animations with Framer Motion and a modern UI using Shadcn/UI and Tailwind CSS.
- Built with TypeScript for type safety and scalability. The portfolio is fully responsive, SEO-optimized, and designed for high performance and accessibility.

Exclusive | React.js, TypeScript, Tailwind CSS, Swiper

- Developed a full-stack e-commerce platform enabling users to browse, search, and purchase products across multiple categories.
- Implemented secure authentication with JWT, HTTPS-only cookies, and environment-based configuration for data protection.
- Built responsive UI with Tailwind CSS, interactive sliders using Swiper, and real-time state management with React Query and Redux Toolkit.

Rebook | React.js, TypeScript, Redux Toolkit, Tailwind CSS, SASS, Swiper, Framer Motion

- Built a full-stack social platform enabling users to exchange used books while promoting sustainability.
- Implemented user profiles, book listings, real-time search, genre/condition filtering, and secure messaging system.
- Developed responsive UI with Tailwind CSS and SASS, state management with Redux Toolkit, and smooth animations using Framer Motion.

Technical Skills

Languages: JavaScript | TypeScript | HTML5 | CSS3.

Frontend Technologies: React.js | Next.js | Redux Toolkit | Redux | Tailwind CSS | Bootstrap | SASS | Material UI | ShadCN UI | Framer Motion | Swiper.

Backend Technologies: Node.js | Express.js | MongoDB | RESTful APIs | MVC Architecture | Authentication (JWT) | EJS.

Tools & Workflow: Git | GitHub | REST APIs | Responsive Design | Agile Methodology | Postman.

Education

Higher Institute for Management and Information Technology (HIMIT)
Bachelor's Degree in Computer Science
GPA: 3.0

Kafr El-Sheikh, Egypt
Expected Graduation: May 2025
